Autonomy TBs Dec 10 + Jun 11.xlsx

Blanca, Gaby, Roxanne and Wade,

I have consolidated the Autonomy TB's into 1 COA that we can use for account mapping purposes.

Fortunately, Autonomy has a consolidated COA structure across all entities, Please see the 1st CoA worksheet for our mapping exercise.

Blanca, Gaby, Roxanne and Wade,

Here is the Autonomy TB with the COA detail.

We can use this to prepare a 1st draft on the account mapping to LH.

I will schedule some time to review.

Meeta, Allison, and John,

Attached are the trial balances by legal entity as of December 2010 and June 2011.

We still need to understand how the individual trial balances consolidate (including inter-company eliminations) and map to the financial statements.

Let me know if you have any questions.

Thanks.

Notes:

- Year ended 31 Dec 2010 and YTD 30 June 2011
- these are prepared under IFRS
- every ledger is presented in USD
- the key entities are ASL (UK trading company), Autonomy Inc, Interwoven Inc, US Digital Assets LLC (Iron Mountain Digital assets), Zantaz Inc, Verity Inc and etalk Inc. All other entities are effectively sales agents or development centers making a mark up and hence are much less valuable.

We are still finalizing 30 Sept 2011 and will circulate as and when available. Will not have much impact

Thanks
